

TeFix® & L-GoFix® MS A2

Fastens wood to wood

TeFix®

fastens wood to wood without pre-drilling and countersinking.

SIHGA TeFix® allows for quick fastening of wood to wood without pre-drilling, which saves labour time and prevents cracking of hardwoods. Thanks to the rust-free stainless steel screws and special multi-level head technology, it ensures a long-lasting and precise fastening, especially for terraces.

When you purchase a SIHGA® mehrwertpack, you will receive a SIHGA® montagepack for free.

L-GoFix® MS A2

SIHGA L-GoFix® MS A2 enables fast and secure fixing of wood to wood. Thanks to its special thread pitch and hardened stainless steel construction, it ensures a high pull-out value and optimal wood protection, even with hard and thermowoods.
