## YOUR BENEFITS

Find out why the SIHGA® Cubix is the perfect choice for your project:

**Flexibility:** The container full of fasteners is on site for your project. You use what you need and can easily return the rest. If something is missing, it is always possible to reorder.

**Short distances:** The SIHGA® Cubix can 'move up' with the structure. The fasteners are therefore always within reach and walking distances are reduced.

**Lockable:** After work is done, the SIHGA® Cubix can be locked. This ensures that everything stays safely in its place and is protected from the weather.

**Ideal container size:** Cubix scores with its convenient container size. Large enough to optimally accommodate all the necessary products. Small enough to be transported easily.

## THE PROCESS WITH SIHGA® CUBIX

- 1** Do you have a construction project over a longer period of time?  
**Simply send us your requirements list.**
- 2** **We will prepare a customised offer** for the entire fastening, the SIHGA® Cubix container including its delivery and removal.
- 3** The project is being realised.  
Depending on your needs, **we will take care of the restocking of the SystemFix.**
- 4** The project is finalised. You will receive a **credit note for all unused, undamaged system packaging** that is returned to us with the SIHGA® Cubix container.

**For further information and individual advice** on the use of SIHGA® Cubix for your project, please do not hesitate to contact us.  
Find out how you can increase your efficiency on the construction site with SIHGA® Cubix.
